

Editorial

Dear Readers, Researchers, and Healthcare Professionals,

It gives me immense pleasure to present **Volume 3, Issue 1 (January – June 2026)** of the Journal of Medical and Dental Frontiers. As we continue our journey of academic excellence, this issue reflects our commitment to promoting quality research, scientific innovation, and interdisciplinary collaboration in the fields of medicine and dentistry. The primary objective of our journal is to provide opportunities for the free exchange of ideas and information among researchers, clinicians, academicians, and students across healthcare disciplines. We believe that knowledge grows stronger when shared openly, discussed critically, and applied ethically for the betterment of patient care and society.

This edition features valuable contributions from authors and scholars who have shared their research findings, clinical experiences, and scientific perspectives. Their dedication to advancing healthcare knowledge plays a significant role in shaping the future of medical and dental sciences.

I extend my sincere gratitude to all authors, reviewers, editorial board members, and readers for their continuous support and trust in our journal. Your contributions inspire us to maintain high academic standards and encourage meaningful scientific dialogue. We hope this issue serves as a source of learning, inspiration, and professional growth for our readers. We look forward to receiving more innovative research and continued participation from the academic community in the future.

With best wishes,

Dr. Preeti Kale

Chief Editor

Journal of Medical and Dental Frontiers
